DISHA

B.Tech Computer Science Engineering (AI & ML) — Chitkara University

dishamakkar1211@gmail.com | +91-9888051929 | Ludhiana, Punjab | linkedin.com/in/disha2808 | github.com/Disha1228

EDUCATION

Chitkara University, Punjab *2024 – 2028*

B.Tech in Computer Science and Engineering (AI & ML) • CGPA: 8.99 / 10

TECHNICAL SKILLS

Languages: C++, Java, Python, Swift, SQL

Data & ML Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Web & App Development: HTML, CSS, JavaScript, Django, Flask, SwiftUI

Databases: MySQL, SQLite, Azure Cosmos DB

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Customer Churn Prediction using Machine Learning *April 2026*

Python, Scikit-learn, Pandas, NumPy, Matplotlib

- Built and compared multiple classification models (Logistic Regression, Random Forest) to predict customer churn from historical usage data
- Performed data cleaning, feature engineering, and exploratory data analysis to improve model input quality
- Evaluated model performance using standard metrics such as accuracy, precision, recall, and F1-score

IoT Smart Cradle – Baby Monitoring System *October 2025*

Arduino/ESP32, Sensors, Embedded C

- Designed and built an IoT-enabled smart cradle using ESP32/Arduino to monitor infant movement in real time
- Integrated sensors to trigger automated alerts and notifications for caregivers
- Developed as a combined hardware-software academic project, applying embedded systems and IoT concepts

Online Learning Platform *August 2025*

Python, Django, Flask

- Developed a web-based platform for accessing structured learning content and course modules
- Implemented user authentication and access control for course materials
- Collaborated in a team to design, build, and deliver the platform as a group academic project

Solve Smart – Web Calculator *January 2025*

HTML, CSS, JavaScript

- Built a responsive web-based calculator supporting standard arithmetic operations
- Designed an interactive, user-friendly interface using HTML and CSS
- Implemented dynamic calculation logic and event handling using JavaScript

CERTIFICATIONS

Deloitte Data Analytics Job Simulation — Forage *April 2026*

- Completed practical tasks in data analysis and forensic technology as part of Deloitte's virtual job simulation program

Azure AI Fundamentals — Microsoft *November 2024*

ACHIEVEMENTS & ACTIVITIES

- Solved 100+ coding and Data Structures & Algorithms problems on GeeksforGeeks
- Graphic Designer, GeeksforGeeks Campus Body — designed promotional graphics and visuals for technical events and student community engagement
- Content Team Member, Bits & Bytes (College Technical Club) — contributed to technical content creation and assisted in organizing student tech activities
