DISHA

has successfully completed the online, non-credit Specialization

Natural Disaster and Climate Change Risk Assessment

This specialized program is aimed at officials, professionals, and team members who formulate, execute, or oversee infrastructure projects and seek to incorporate disaster risk analysis and climate change adaptation into their projects. Through 3 courses, you acquired knowledge and tools to enhance technical capabilities and decision-making, integrating qualitative and quantitative analysis, and incorporating the governance of natural disaster risk and climate change resilience into the design of infrastructure projects.

Juan Cristóbal Bonnefoy
Chief of the Inter-American Institute for Economic and Social Development (INDES).
